

SYSTEMS ENGINEER

Automatic Doors | Automatic Gates | Automatic Traffic Barriers

We are seeking a field engineer for the installation, maintenance and repair of automatic entry systems.

Core Responsibilities:

- Attend and carry out new installations, small works, repairs and maintenance inspections to automatic entry systems.
- Provide comprehensive written reports following each job.
- Work with the Technical Coordinator to keep up to date with the latest legislation and installation methods.
- Work with the General Manager to ensure the continued growth of the business.
- React to client call outs, diagnose faults and repair.
- Must be willing to commit to call-out rota working unsocial hours (If Req).
- Must be willing to work overtime when required.

Essential Skills:

- Must have product knowledge of automatic door and/or gate systems (RECORD, LABEL, GEZE, BFT, FAAC etc) and wiring of control panels.
- Must have full driving licence.
- Good organisational & communication skills.
- The ability to work individually and as part of a team.
- The ability to work under pressure and to meet deadlines.

Desirable skills:

- Ability to weld.
- Hold a current EN16005 qualification.
- Hold any electrical certification and qualifications.
- Any other skills to assist in the growth of the business.

Our office is based near Norwich and we serve the Norfolk, Suffolk, Ipswich and Cambridge area. Salary negotiable. Normal working week consists of Mon-Fri 8am to 4:30pm. If you are interested in the vacancy, please email your CV with a covering letter.
